LeetCode ↗ — GitHub ↗ — Portfolio ↗

Education

B.Tech in Computer Science (Artificial Intelligence & Machine Learning)

GL Bajaj Institute of Technology and Management

2024 - 2028

CGPA: 8.57

Intermediate (CBSE)

86.8%

2024

High School (CBSE)

91.4%

2022

Skills

Technical:

Programming Languages: Java, C, Python

Web Development: HTML, CSS, JavaScript

Database: MySQL

Tools: Git, GitHub

Concepts: Data Structures, Algorithms, Object-Oriented Programming

Personal:

Skills: Communication, Analytical Thinking, Adaptability

Internship

AI/ML Intern – Tata Steel Prashikshan

May 2026 – Jun 2026

Project: LD1 LF Superheat Control Model ↗

- Developed a machine learning model using **3,300+** Ladle Furnace production records to predict temperature behavior and support superheat control in steelmaking operations.
- Performed data preprocessing, feature engineering, exploratory data analysis (EDA), and model development using **Python, Pandas, NumPy, Scikit-learn, and Random Forest Regression**.
- Evaluated the impact of feature selection and dataset variability on model performance, achieving up to **95% R^2** on temperature prediction tasks.
- Designed a predictive workflow to recommend target furnace temperatures for maintaining the desired superheat range (**30–45°C**), assisting operators in process optimization and decision-making.

Projects

Public Issue Reporting Website with Realtime Monitoring System ↗

HTML, CSS, JavaScript, MySQL

- Developed a web-based complaint reporting platform using HTML, CSS, JavaScript and MySQL.
- Implemented a real-time monitoring system to track complaint status.
- Designed a MySQL database for efficient issue management.

Notes Sharing Platform ↗

HTML, CSS, JavaScript

- Built a web-based notes sharing platform enabling students to upload, categorize, and search study materials using HTML, CSS and JavaScript.
- Implemented a filtering system based on subject, course, and categories.
- Improved accessibility of study resources for collaborative learning.

Achievements

- Solved **250+** Data Structures and Algorithms problems on LeetCode.
- Solved **80+** problems on GeeksforGeeks.
- Participated in **Smart India Hackathon (SIH) 2025**.
- Qualified for **Daksh Hackathon**.
